Arguably more important and enjoyable than the marriage itself, men have always jumped at the opportunity to go on a guy's night out where they are free from the clutches of their ladies to do as they please. Take a look at our range and be sure to pick something that is really going to turn your stag night into a wild evening full of bonding boys, big boobs and beer.

Glass Dildos

Often regarded as being the 'jack of all trades' material for dildos, glass has made a big impression in the last few years where female sex toys are concerned. They come with a bunch of benefits including easy lubrication with saliva, long-term durability, pleasant internal sensations, above-average malleability and finally, compatibility with practically every lubricant out there. Glass is also incredibly responsive to heat, meaning your dildo is capable of being ice cold for summer or super warm for winter. Oh, and if that wasn't enough: they also happen to double as very sexy artwork!
